

Property that is to be disposed of for other than the above listed purposes will be appraised.

**§ 644.437 Disposal plan for fee-owned land.**

A disposal plan will be made for each surplus property. It will include the District Engineer's recommendation of the method or methods of disposal and the reasons therefor; for example, whether improvements or minerals and lands should be sold separately; improvements cannibalized; whether the property should be subdivided; the media for advertising; and other pertinent factors. In addition, the following will be included as part of the disposal plan:

- (a) Description and map of the lands.
- (b) Description of buildings and other improvements.
- (c) Appraisal made in accordance with §§ 644.41 through 644.49, unless exempted by § 644.436.
- (d) Information as to when, from whom, and how the property was acquired.
- (e) Information as to the estate which the Government has in the land, and reservations and exceptions in and to the Government's title. Outstanding interests granted by the Government or reserved or excepted in the acquisition of the lands will be stated with particularity. The map or plat will delineate any grant, exception, or reservation, such as telephone and telegraph, electric transmission, oil, gas and water lines.
- (f) Purchase price of land, buildings and improvements acquired with the lands, and the cost of buildings and improvements, if any, constructed by the United States.
- (g) If there is an indication of valuable minerals, such statement will be made with full explanatory data.
- (h) Where the estimated value of the land together with improvements and related personal property is in excess of \$1,000, the disposal plan will be submitted to DAEN-REM for approval.

**§ 644.438 Disposal plan for easements.**

When recommending disposal of a surplus easement the District Engineer will submit the following:

- (a) Information as to when and from whom the easement was acquired.
- (b) The consideration paid therefor.
- (c) Identification of the installation to which it is appurtenant.
- (d) If the easement has no commercial value, the amount that should be paid by the owner of the servient estate, representing a rebate on the purchase price, or the amount paid for severance damages will be specified. (For example, if the easement was acquired for a 15-year period and the price paid therefor was substantial and one year after acquisition it is returned to the owner of the servient estate, an effort should be made to obtain a rebate on the purchase price although the easement has no commercial value. The same would be applicable to the payment for severance damages).
- (e) If the owner of the servient estate, or other prospective grantee, is not willing to pay the appraised value in consideration of the release of an easement acquired for a substantial consideration, all action to release the easement will be held in abeyance until such time as an adequate consideration can be obtained for the release. Note the minimum payment for release of spoil easements discussed in paragraph (b) of § 644.435.

**§ 644.439 Sale and conveyance.**

Sales procedure, including advertising, will be in accordance with §§ 644.540 through 644.557. Normally, conveyance will be by deed, prepared and executed as provided in § 644.441.

**§ 644.440 Application of antitrust laws.**

Section 207 of the Federal Property Act provides that real property and related personal property with an aggregate total cost of \$1,000,000 or more, or patents, processes, techniques, or inventions, regardless of costs, shall not be disposed of until the advice of the Attorney General has been received as to whether the proposed disposal would tend to create or maintain a situation inconsistent with the antitrust laws. Prior to obligating the Government on any such disposal, the District Engineer will furnish DAEN-REM information on the probable terms or conditions. DAEN-REM will use this information as the basis for a request to the
